

LEED™ Submittal Sheet Material Information Sheet

Materials and Resources

Date: June 1, 2014

Recycled Content of Products. Credit 4.1

1. Product: 1/2" Regular Board, 1/2" Moisture Resistant, 1/2" Exterior Sheathing, 1/2" Veneer Board, 1/2" Lite, 1/2" Protec M+M
1/2" Blueglass, 5/8" Type X Board, 5/8" Protec M+M, 5/8" Protec M+M+AR, 5/8" Blueglass

Total Recycled Content 10% Post Consumer 4% Pre Consumer 6%

Post-Consumer content figures include recycled front and back paper, as well as reclaimed / recycled gypsum from a 3rd party vendor.
Pre-Consumer figures include production trim and scrap which is recycled back into board production.
1/2" Gypsum Board with a total recycled content of 26% is available upon special request.

Regional Materials

Manufactured Regionally, Credit 5.1

Within 800 Kilometers/500 Miles of the project site as the crow flies
*If shipped by rail or water 2400 Kilometers/1500 Miles

Manufactured refers to the final assembly of components of a building product before it is transported to the project site and installed by trades people.

Project name:

Project Location:

Total kms/miles

Regional Materials

Extracted Regionally, Credit 5.2

Point Tupper, Nova Scotia: 85% Raw Materials Within 175 km (109 miles), Distance Weighted Average
Raw material extracted from East Milford, NS, transported by rail and ship to plant.

Rapidly Renewable Materials

Renewable Materials, Credit 6

Cabot Gypsum Board products contain approximately 1% starch by weight and starch is a rapidly renewable material.

Disclosure

Cabot Gypsum does its best to provide an accurate average value for recycled content, values can vary day to day for a number of reasons.
